To all parents...					
The study of ballet requires Commitment and Dedication . It is not just about learning the steps or exercises. Building strength, awareness and understanding of the body is the most important part of learning ballet. In order for students to progress, they must attend classes regularly and on a consistent basis. Our program is based on Vaganova curriculum where every class is a preparation for the next.					
Please help your children to be successful by bringing them to all their classes on time, properly attired, and well rested.
